

AIR 1 has been servicing my family as members of this local community, and I would not like to see it taken off the air. I have 2 children, 9 and 13, and they both love to listen to this station, so much so that we contribute financially so it may stay commercial free. Please do not displace it with LPFM broadcaster providing other programming. It is in the public's best interest because the songs played in this station do not contain vulgar and shameful lyrics, yet it appeals to all ages.
